

Jessica Schroeder, Ph.D.

jesscs@cs.washington.edu

<https://jesscs.github.io/>

SUMMARY

Senior Research Scientist specialized in human-computer interaction (HCI) and health informatics. Extensive experience in multidisciplinary research, including conducting *formative studies* to identify needs and opportunities; *iterative design and development* of novel methods and tools to support those needs; and *evaluations* to examine feasibility and develop design implications for future tools.

EDUCATION

University of Washington (9/2014—9/2020)

Seattle, WA

Ph.D., Computer Science & Engineering

Dissertation: Goal-Directed Self-Tracking in the Management of Chronic Health Conditions

Advisors: James Fogarty, Sean Munson

M.S. earned December 2016

GPA: 3.9

Pomona College (8/2010—5/2014)

Claremont, CA

Computer Science Major, Neuroscience Experience

GPA: 3.9

University of Edinburgh (8/2012—12/2012)

Edinburgh, Scotland

GPA: 3.9

PROFESSIONAL EXPERIENCE

Senior Research Scientist (September 2021—Present)

Evidation Health

Research Scientist (March 2020—August 2021)

Collaboratively designs, conducts, and analyzes novel quantitative and mixed-methods studies to investigate health-related perspectives and behaviors and examine novel technologies, tailoring study design to project goals (e.g., market research, patient-centered design, efficacy evaluations).

Research Assistant (September 2014—September 2020)

University of Washington

Investigated supporting people and their health providers in collecting, analyzing, and interpreting patient-generated data to meet personalized health goals in multiple health contexts.

Built interactive, exploratory visualizations to help people identify personal IBS triggers.

Conducted surveys and interviews to characterize needs and opportunities in migraine tracking.

Proposed goal-directed self-tracking as a general framework for self-tracking data.

Collaborated with health providers in the design and evaluation of novel prototype health apps.

Research resulted in related grants from the NSF (\$500k) and the NIH (\$1.5M).

More detailed descriptions available on my [personal website](#).

Research Intern (Summer 2017)

Microsoft Research

Conducted a feasibility study to investigate how a mobile app can support behavioral therapy.

Designed and analyzed surveys to: 1) characterize significant positive changes in anxiety, depression, and coping skill use; 2) develop a theoretical model to describe how the app supported these improvements; and 3) distill design implications for future tools.

Identified opportunities for machine learning techniques to provide personalized and context-aware suggestions to help people identify feasible and useful positive coping skills.

Project Manager (August 2013—May 2014)**Harvey Mudd Clinic**

Led development of a web app to provide personalized vacation recommendations for Expedia, Inc.

Undergraduate Research Assistant (Summer 2013)**Carnegie Mellon HCI**

Investigated augmentations of a chronic illness forum to help people find credible information.

Research Intern (Summers 2011 and 2012)**Stanford School of Medicine**

Ran wet lab experiments at the Conte Center for Neuroscience Research.

Undergraduate Research Assistant (Spring of 2012)**Pomona College**

Developed a web application to identify fusion genes, which have implications in cancer.

AWARDS/HONORS

Best Paper Honorable Mention, ACM Conference on Designing Interactive Systems (2018)

Best Paper Award, ACM Conference on Human Factors in Computing Systems (2017)

Best Paper Honorable Mention, ACM Conference on Human Factors in Computing Systems (2017)

NSF GRFP Awardee (2016)

Marilyn Fries Endowed Regental Fellowship Recipient (2014)

ARCS Foundation Fellow (2014)

Harvey Mudd Computer Science Clinic Team Award Winner (2014)

Pomona College Marshall and Rhodes Scholarship Nominee (2013)

Six-Time Pomona College Scholar (2010-2013)

Grace Hopper Scholarship Recipient (2013)

DREU-CRAW Participant (2013)

National Merit Scholar (2010)

SKILLS

User research: semi-structured interviews, surveys, field studies, observation, contextual inquiry

Data analysis: qualitative data analysis (e.g., coding, thematic analysis, affinity diagramming;
quantitative data analysis (e.g., with R, Python, Pandas, NumPy, Matplotlib, Seaborn)

Prototyping: prototypes, mobile and web app development (e.g., in Angular, Ionic, D3.js)

Leadership: project management; communication (e.g., scientific and technical writing, presentations); diversity and inclusion advocacy.

TALKS

Supporting Patient-Provider Collaboration to Identify Individual Triggers Using Food and Symptom Journals. Session: Human Computer Interaction and Self-Tracking. *University of Washington Computer Science & Engineering Affiliates*. October 2016.

POSTERS

Examining Self-Tracking by People with Migraine: Goals, Needs, and Opportunities in a Chronic Health Condition. *University of Washington Computer Science & Engineering Affiliates* 2017.

Supporting Patient-Provider Collaboration to Identify Individual Triggers Using Food and Symptom Journals. *University of Washington Computer Science & Engineering Affiliates* 2016.

Personal Guidance on Individualized Food Triggers for IBS Patients. *University of Washington Computer Science & Engineering Affiliates* 2015.

Personal Guidance on Individualized Food Triggers for IBS Patients. *Intel Science and Technology Center for Pervasive Computing Retreat* 2015.

TEACHING

Teaching Assistant, CSE 510: Advanced Topics in HCI (Winter 2018, Fall 2018)

Designed and graded assignments, critiqued projects, and advised students. (*Professor: James Fogarty*)

Writing Fellow, Pomona Writing Center (August 2011—May 2014)

Appointed position to help students improve papers (e.g., essays, personal statements, lab reports). As Senior Science Writing Fellow in 2013/2014, I led improvements in scientific writing support.

SERVICE, MENTORING, AND LEADERSHIP

Affiliate Assistant Professor, UW Computer Science & Engineering (August 2021—Present)

Volunteer position enabling ongoing mentorship and research collaboration.

Research Mentorship (June 2020—Present)

Mentorship has included interns at Evidation Health as well as HCI students from UW and UCI.

HCI Seminar Lead, UW Computer Science & Engineering (January 2017—June 2018)

Led improvements to the seminar and organized quarterly themes, presentations, and feedback.

Reviewer (Fall 2016—Present)

ACM Conference on Human Factors in Computing Systems (CHI 2017--2021), ACM Conference on Computer Supported Cooperative Work (CSCW 2018, 2019, & 2021), ACM Conference on Designing Interactive Systems (DIS 2018 & 2019), International Conference on Affective Computing and Intelligent Interaction (ASCI 2021), and PACM on Interactive, Mobile, Wearable and Ubiquitous Technologies (IMWUT 2020).

HCI Visit Days Coordinator, UW Computer Science & Engineering (Winter 2018)

Coordinated one-on-ones with faculty and current grad students; organized afternoon activity.

Graduate Student Admissions Volunteer, UW Computer Science & Engineering (Fall 2016)

Reviewed graduate student applications to advise on admissions.

New Graduate Orientation Leader, UW Computer Science & Engineering (Fall 2015)

Organized orientation for the new computer science graduate students at the University of Washington. Coordinated talks from student organizations, grad students, and professors.

Class Representative, University of Edinburgh Informatics Department (Fall 2012)

Acted as a liaison between faculty and students to help voice complaints and deliver suggestions.

Volunteer, Miscellaneous Organizations (Fall 2008—Present)

Volunteer with Equality California/the Human Rights Campaign, Organization for Special Needs Families, Pomona College Draper Center, and AmeriCorps Jumpstart Little Readers Program. My recent volunteering focuses on outreach to people—particularly girls and young women—considering pursuing computer science or other STEM fields, including discussing STEM research with girls ages 6-18 and their parents at a Go, Girl, Go! event, working at UW computer science grad recruitment booths at Hopperx1 Seattle and the Tapia Celebration of Diversity in Computing, and visiting the Pomona College Computer Science Department to talk to undergraduates considering graduate school.
